OTTO ARNOLD, Agent.

Last Friday was Mexican independence day.

Columbus day will be observed by the schools here.

John Robinson's circus will be at Deming October 6th.

Mrs. Rosenberg gave a very enjoyable card party last Thursday evening.

Dame Rumors says that there will be another wedding in Silver City soon.

Work has been suspended on the new Episcopal church for several days.

The ladies of the Methodist church of this city will give a fair in the near future.

The Southwest Sentinel is sold at the Post Office News Stand—10 cents a copy.

The walls of Dr. Woodville's new residence near the Presbyterian church have been started.

Suits will be commenced against all of the persons indebted to the First National Bank of this city in a few days.

The Silver City hose team returned to Silver City covered with glory enough for the first attempt at the Territorial fair.

Dr. White, the dentist, expects to leave town in a few weeks for an extended trip. Any one wishing his services should call at once.

Most of the schools in this county have already opened and the attendance is larger than ever before. The number of schools has increased considerably within the year past.

Quite a number of young people went out to Lone Mountain last Friday evening to a party at the residence of Clark Rodgers. They returned early in the morning.

The Texas authorities have established a quarantine against cholera and now passengers from Silver City to El Paso have to satisfy the health officer at the state line that they are not bringing cholera into the state.

Mayor Fleming offers to back the Silver City hose team for \$250, to run 200 yards against any team from Albuquerque, barring professionals. Let us hear from the Duke city.

Harry Fleischman, a well known young business man of Deming, and Emily Schoerl, of Wisconsin, were married at the residence of N. A. Bolich at Deming last Tuesday.

S. H. Eckles has moved into the residence which he recently purchased of John S. Swift. He has made extensive improvements on the property since he purchased it.

Ysidro Leandro, a Mexican horse thief was arrested here last week and is now lying in jail here waiting trial. He is wanted in Arizona for horse stealing, having appropriated a horse belonging to Pablo Salcido near Duncan.

The County Commissioners met yesterday to check over the interest coupons paid and have a settlement with the treasurer and sheriff. Treasurer Berg was on hand but the sheriff did not put in an appearance.

Silver City's running team can sustain the reputation of the city even if the Silver City base ball nine gets beaten regularly. Silver City has a good fire department but the base ball nine won't do to brag on.

Grass on the ranges is rapidly drying up. There was rain enough last month to give grass a good start, but it has been so dry since the end of last month that all growth of grass has been checked. The prospect for stockmen this winter is not very bright.

J. Crockett Givens, of Central, has made an assignment to S. Lindauer for the benefit of his creditors. The assignment was caused by the commencement of an attachment suit which caused some uneasiness among his creditors.

The Silver City hose team did themselves proud at Albuquerque last week. Seven of the Silver City boys with three of Albuquerque's No. 1 made the best time to a fire in the Opera house block. The Silver City boys are always on time at a fire and always do good work as has been abundantly proven at fire in this city.

Lon Neal who was arrested on a charge of being implicated in the murder of Lee Hodgson near Hachita some time since had a preliminary hearing before Judge Field at Deming last week and was held in \$10,000 bonds to await the action of the grand jury. It will be remembered that, at the time of the murder, it was reported that Indians did the killing.

The world's record for 100 yards running was broken at the Territorial fair at Albuquerque last Friday. Morris, the Prescott runner, ran 75 yards in 6.35 seconds. After the race, Capt. Reynolds, who backed Morris in the Morris-Quirk race, offered to back Morris for \$50,000 for 75 yards against the world.

The injunction suit of the Atchison, Topoka and Santa Fe railroad company against the Silver City and Northern has been settled and a through rate on ore from Hanover has been established. The rate to Socorro is \$3.50 and to El Paso \$2.75. These rates are higher than the old rates and will not encourage large shipments of ore from Hanover.

Personal.

Thos. Foster went to Gold Hill yesterday.

Bud Moore was up from Deming last week.

George O. Smith went to Topoka last week.

Irene Mose is teaching school at Hachita.

Dr. and Mrs. E. L. Stephens leave for the east this week.

Harry W. Lucas was at Albuquerque last week taking in the fair.

Thos. Lyons returned from a trip to the northwest Sunday afternoon.

Rev. Howard, of Albuquerque, held service in the Methodist church here last Sunday.

J. N. Upton and wife and Miss Thompson came in from the Mimbres last Saturday.

Mr. and Mrs. Abraham returned yesterday from a trip to the northern part of the Territory.

C. M. Heilman was at the fair at Albuquerque last week. He was up there talking telephones.

W. C. Porterfield and wife were among the Silver City people who visited the Territorial fair last week.

C. F. Bottom has returned from New Orleans. He came by way of Albuquerque and took in the fair.

Mrs. John S. Swift and family have returned from St. Louis where they have been for several months.

Mayor Fleming attended the meeting of the Territorial democratic central committee at Albuquerque last week.

L. A. Snelly has gone to Raton to attend the meeting of the Grand Lodge of Knights of Pythias of New Mexico.

Rev. Wright preached his farewell sermon here last Sunday evening in the Presbyterian church. He leaves soon for Denver.

Treasurer Berg came up from Deming Sunday afternoon to attend the meeting of the board of county commissioners yesterday.

Superintendent Miles visited a number of the precincts in the southern and western part of the county during the past two weeks. He was out looking after school interests.

Columbus Day.

The Silver City public schools are preparing to observe Columbus Day, in accordance with the proclamation issued by President Harding, naming October 21st as the true anniversary of the discovery of America, and recommending its observance by suitable exercises in all the schools of the United States.

Especially do they hope to comply with that portion of the proclamation which says, "let the National flag float over every school house in the country."

An official programme of exercises for the day, uniform for every school, has been arranged and is as follows:

1. Reading of the President's proclamation. By the Master of Ceremonies.

2. At the close of the reading the announcement: "In accordance with this recommendation by the President of the United States, and as a sign of our devotion to our country, let the flag of the Nation be unfurled above this school."

3. Raising of the flag. By the veterans.

4. Salute to the flag. By the pupils.

5. Acknowledgment of God. Prayer or scripture.

6. Song of Columbus Day. By pupils and audience.

7. The address. "The Meaning of the Four Centuries."

8. The ode. "Columbia's Banner."

9. A reading of the poem written for the occasion by John B. Proctor.

10. Here should follow whatever additional exercises, patriotic recitations, historical representations or chorals may be desired.

11. Address by citizens and National songs.

The additional school programme will be announced hereafter.

He Objects.

SAN JOSE, HUDSON P. O. Sept. 11, '22.

ED. SOUTHWEST SENTINEL—Sir, seeing in your last issue succeeding the late democratic convention that Mr. Harry Whitehill voted me by proxy, I must again object and say most emphatically that he was not authorized by me to do so and was in town and attended the regular convention and this the bolters knew and did wrong by allowing Whitehill to vote me. I will also say and am prepared to prove that he had no authority to vote Link and Foster as he had no authority from either of these gentlemen to represent them either in the regular convention or that of the bolters. Any one who doubts this I respectfully refer to the gentlemen themselves. I trust you will find room in your paper for this as it will explain to those who do not know how the matter stands and will also I trust show that I had some reason to object in the regular convention to Mr. Whitehill voting for Mr. Link and Mr. Foster as I knew he had no authority to do so.

Very Respectfully,

H. H. HARRISON.

W. Berg who was here yesterday from Deming says that he is working about thirty men on the canyoneer extract works at Deming. The company is spending a large amount of money in machinery and buildings and the managers are confident that the works will return a large profit on the investment. The cultivation of the canyoneer plant has already been commenced and it is expected that the cultivation of the plant and the work of gathering the roots will give employment to many hundreds of people in the vicinity of Deming. The extract will be shipped to tanneries in the East where it will take the place of oak and hemlock bark in the process of tanning leather. The tannery acid which is extracted from the canyoneer root is said to be superior to that extracted from any other material. Canyoneer can be found in abundance in this part of the Territory and if the works at Deming prove successful other plants will be erected at convenient points in the Territory.

The Daltons Not Captured.

The report that the Dalton gang of train robbers had been taken in was sent broadcast over the country from Deming last week. A stranger in town who gave his name as Williams, and who claimed to be a deputy United States marshal, stated that two of the train robbers had been killed and five others captured near the Mexican line south of Deming. He said that he had been shot in the hand, but did not show the wound to anybody, and was very mysterious about everything. The curiosity of the newspaper correspondents was aroused and the details of an encounter with train robbers was sent over the wires, and through the medium of the associated press it was disseminated over the country.

The Marshall's hand was very painful and Williams took copious draughts of old Kentucky bourbon to drive away the pain according to the report. The whole affair was simply a hoax, and Williams is a miserable fraud. The Daltons have not been captured, and it is more than probable that they have not been near Deming. After the account of the capture of the gang had been published some imaginative fellow spun a yarn to a reporter for the Albuquerque Democrat and that paper had an account of a plan to rob the Deming bank, Wells, Fargo & Co.'s express office, and two business places, but according to this account the Dalton gang attempted to get a confederate at Deming and the whole scheme was a flop. This story, like the other, would have been important if true.

World's Record Broken.

The world's record for rock drilling was broken at Albuquerque last week and Grant county men did it. The following account of the contest is taken from the Albuquerque Citizen:

"Frank L. Cheney and James H. Barry, a team from Cook's Peak—known as the Walter C. Hadley team—were the first to enter the arena. Their work, in its rapidity, was a surprise to many old miners interspersed among the crowd of spectators. Julius Eisenmann officiated as time-keeper and at the word 'go' from one of the judges Cheney showed how artistically and rapidly the head of a drill can be polished with an eight pound hammer, without apparent effort, and with graceful movement of the main muscles and forearm. His partner did equally effective work in turning and it was apparent from the movements of both men that a wonderful record would be developed. They used no 'spoon' and the hole was watered and cleaned by means of a small tube attached to a two gallon can of water. As time was called at the end of every minute, the men still holding their positions on either side of the hole, changed from hammer to drill, and fresh steel was applied. These changes were made so rapidly that the outsider could scarcely detect the interruption in the incessant whack! whack! whack! At the close of twelve minutes a hole 2 1/4 inches was bored through the solid granite, the steel forcing its way through the bottom. A new hole was then started with delay and at the end of the fifteen minutes final time was called and the team given a record of 33 1/2 inches, and the fastest' record heretofore made was at Helena, Montana, last spring, when the champion team got down to 33 1/2 inches. This gives the championship of the world to the Walter C. Hadley team, but before it is officially determined they will be required to cross hammers with the Montana boys. Hundreds of hats will be flung in the air when the result reaches the various mining camps of New Mexico."

New Mexico Board of Pharmacy.

The New Mexico Pharmaceutical Examining Board met at Albuquerque, September 18th, 1922.

Present—E. G. Murphy, First District; E. W. Spencer, Third District; John L. Zimmerman, Fifth District; and Secretary W. C. Porterfield, Fourth District. President C. M. Creamer was unable to attend, owing to sickness.

E. G. Murphy was elected president pro tem.

A number of candidates were examined and certificates granted to six who passed successful examination.

Many matters of interest to the pharmacists of the Territory were discussed, and various resolutions adopted by the Board.

Under the provisions of the pharmacy law the conditions of the profession have very materially improved, and the health and welfare of the public thereby promoted.

There are only two or three drug stores in the Territory that are not provided over by registered pharmacists. These appear to be running in open violation of the law, and the Board has ordered the secretary to make further investigation of these cases and if they still refuse to apply for certificates of registration to keep a registered clerk constantly in their employ, as provided by the pharmacy law, that the same be reported to the district attorney in such district as they may be situated and prosecution be entered as provided by the pharmacy law.

There are 118 registered pharmacists in New Mexico.

C. M. Creamer, of Santa Fe, was re-elected president for the ensuing year, and W. C. Porterfield, of Silver City, re-elected secretary.

The republicans seem hard put to it for candidates to run on their county ticket. Two prominent gentlemen selected by their constituents convention here lately, have wisely refused to accept the honors. They then thrust upon them, and their central committee is hustling around trying to find victims who are willing to fill the vacancies. Those who are running are: C. S. Bellum of Gold Hill, E. Leahy and Harry Small of Lordsburg, C. F. W. Schmalde of Burro Chisnes, who have all been favorably mentioned by their party to take the place which Walter C. Hadley refused to fill, and Harry Booth of Central, Israel King of Lower Mimbres, B. Rosenfeld, J. C. Berry, T. B. Phoeby and Chas. Dennis of Georgetown have had their names prominently spoken of as substitutes for Alex. McDermott for county commissioner.

Mining and Milling.

Work has been resumed in the mines at Hanover and heavy shipments of iron ore will be made from that camp. During the past two months no ore has been shipped from that camp owing to the refusal of the Atchison, Topoka and Santa Fe company to furnish a car to the Silver City and Northern because the local rates on ore shipped over its line. The difficulty having been settled, the camp will again take its place among the largest camps in the Territory.

Ore shipments from Cook's Peak have been steadily increasing for the past two months and now the daily shipments reach nearly 100 tons of ore. Some very important strikes have been made here in sight in the mines there more than in any other camp in New Mexico.

Felix Leavick arrived from Denver last week and has been trying to get the title to the Confidence group of mines in the Silver Creek district perfected. As soon as this is done a large mill will be erected for the treatment of ore at the mines. The property has been thoroughly developed and it is estimated that there is over a million dollars worth of ore in sight. The plans for the mill are all ready and when it is completed it will be the largest mill in the Territory. The mill will be run by electricity.

Ore is being purchased in considerable quantities at the Deming sampling works. Most of the shipments received are from the southern part of this county. The prices paid so far have been entirely satisfactory to miners who have ore to sell.

There is not much prospect that either the Pacific or Artec mill here will be started very soon. The water company cannot furnish water enough to supply the Pacific mill and the Artec has been so dry that there is little prospect that the mill can be started for several months yet. The work on the Montana tunnel has progressed so slowly that there is not much prospect that the vein will be struck before next spring and at that event the mill will not be started as before some time next summer as it will take some weeks to open up the vein and get the mine in shape to produce ore enough to keep the mill supplied.

The total capacity of the ore reducing plants now completed here is more than 300 tons daily, but only one mill has been running recently and that has a capacity of only about 80 tons of ore per day. Scarcity of water and the low price of silver are operating very materially to the detriment of the mining interests of this section. If a fair price could be obtained for silver the Placer works here would be in full operation and the completion of the Goldis mill would be hastened, but with silver under 85 cents an ounce the Placer works cannot be operated and there is no reason for pushing work at the Goldis mill because it is not probable that it could be operated profitably with silver at its present price.

The Gold Hill mill completed a run of ore from the Patterson mine last week and has started up on ore from Snyder Bros. property.

P. H. McDermott, of Carlsbad, who has been running the Carlsbad mill on ore from his mine, has shipped a car load of ore to the sampling works at Deming.

Kedzie, App and Clamson are making a shipment of ore from their mine at Hachita to the Deming sampling works.

An immense zinc deposit has been discovered in Mineral Valley, within two miles of Hillsborough. It is said by Professor Carver to be the largest surface deposit of zinc in the United States.

The weekly shipments of ore from Cook's Peak district have increased very rapidly this summer and now amount to about 600 tons of ore. There are immense bodies of ore in eight miles of the camp being rapidly developed.

There has been very little doing in the placer mines in this part of the Territory this summer on account of the scarcity of water. The Pinos Altos placers which usually produce considerable gold have produced very little this summer.

THE METAL MARKET.

There has been no appreciable change in the silver situation. The German government has named Privy Councillor Glessing of the Imperial treasury as its representative at the international monetary conference. No place has yet been decided on for the conference to meet and it can have little influence on the price of silver for some months to come. This government purchased over 1,000,000 ounces last week and a large amount was exported to Europe. The closing price was 83 1/2.

Copper has declined considerably and the sales have been heavy. The big companies have found it impossible to keep the price around 12 cents. Lake closed in New York at 11.00.

Lead has been quiet with a light demand on account of building strikes in various parts of the country. The closing price was 4.05.

Two bars of bullion were shipped through the Silver City National Bank last week by W. H. Newcomb. These bars were the result of the second election at the Bremen mill. Shipments of bullion from this place are much larger than they were two or three months ago but they are still far below the average of last year.

Richardson Offers His Services.

The following letter from Hon. G. A. Richardson is self explaining:

El Paso, Tex., Sept. 2nd, 1922.

Mod. J. W. Fleming, Silver City, N. M.

My Dear Sir:—I am one of any service to the democrats of Grant County during the coming campaign, in addition to the election of our legislative tickets please call on me. I would be glad to be with you in the fight.

Very truly yours,

G. A. RICHARDSON.

MRS. TERESA D. WHITE.

Private and Class Lessons given in Drawing and Painting.

Bellair Street, SILVER CITY, N. M.

Anxious for Dividends.

Last Tuesday evening there was a meeting of depositors in the defunct First National Bank of this city at C. C. Shoemaker's store. The meeting was called to talk over the situation and see whether any additional information could be obtained as to the condition of affairs.

Dr. Louis Rennon was elected chairman of the meeting and stated the object for which it was called. It was suggested that as the receiver of the bank was in town he might be able to give some information as to the condition of the affairs of the bank. A committee was accordingly appointed to wait on the receiver and request him to come to the meeting and explain the situation as far as possible. He was found in consultation with Col. Pickett and said that he would come in a few minutes.

While waiting for the receiver the depositors talked over the situation and interesting information in reference to the Deming bank which is largely indebted to the defunct bank here was given by Col. Lockhart.

When the receiver arrived the chairman stated to him the object of the meeting and said that the depositors were anxious to know what the prospects of a settlement with the depositors were. The receiver stated that he came here a short time before the opening of the spring term of court here and did not care to commence suits at that time, but that every effort had been made to collect the notes due the bank. He said that some money had been collected and that about \$13,000 had been sent to Washington. He had commenced no suits yet but proposed to sue those who did not pay. The statement that only about \$13,000 were available for the payment of liabilities aggregating about \$65,000 fell like a wet blanket on the meeting.

Some one asked if an assessment had been levied on the stockholders of the bank here and the receiver replied that no assessment had been levied although he had recommended it. He stated that an assessment of 82 per cent. had been levied on the stockholders of the First National Bank at Deming and that a considerable sum had been paid in. He estimated that an assessment of 100 per cent. on the stockholders of this bank would bring in about \$30,000. He stated that he had recommended to the controller of the currency about a month ago that an assessment be levied but that the controller thought an assessment at that time would be premature. In reply to a question as to whether a petition, signed by the depositors, would have any effect on the controller he stated that he thought it would not.

The receiver was given a vote of thanks for the information which he had given and he retired. The depositors were not at all pleased with the situation and decided to use every means to induce the controller to levy an assessment. A committee was appointed by the chairman, to which the chairman was added, to call on the controller in reference to the matter. The committee was given full power to represent the depositors and a determined effort will be made to protect the depositors in the bank.

The receiver refused to give any information whatever to any of the depositors in reference to the notes held by the bank so that they might form an idea as to whether the notes were good or not, except that he said that C. H. Dane had borrowed of the bank all that the law allowed him to borrow, but did not state whether he had borrowed more than the law allowed him to borrow.

It has been more than seven months and a half since the bank failed, and as there was considerable cash on hand when the doors of the bank were closed, it appears that collections have been pretty small for that length of time.

The receiver volunteered the opinion that the depositors would be paid in full in time but the depositors do not appear to share this opinion.

Thomas Foster has purchased the I. O. O. F. building and will repair it immediately. The lower floor will be fitted up for a plumbing shop and quarters for the water company and the second floor will be rented to one of the I. O. O. F. lodges.

Silver City Gets Second Place.

The Silver City hose team returned from Albuquerque Sunday afternoon, and the boys were met at the station by the band and a large number of citizens who wanted to congratulate them on their success.

The teams ran Saturday and the Silver City team made the 200 yards in 25 seconds. Albuquerque ran in 24 1/2 seconds, and took the first prize. The Silver City boys are well satisfied with their second prize and will probably go to the fair again next year when they will make a more determined effort to get first place.

The hose team had very little practice this year, and in view of the fact that they were beaten only one-half second it is more than probable that the team, with a little more practice, could have beaten the time made by the Albuquerque firemen.

Card of Thanks.

The Silver City running team desires to return thanks to Dr. R. P. Stovall, of Deming, for courtesies shown the team on the trip to the Territorial fair at Albuquerque.

JAMES BURN, HARRY WHITEHILL, COX WHITEHILL, WAYNE WHITEHILL, JOHN KING, LOUIS REYMOND, JAMES DORNINGTON, CLARENCE BAYNE, ALICE MORRIS, JACK MEADOWS.

Members of Silver City Running Team.

An Inquiry.

GRANOSMITH, Sept. 12, 1922.

ED. SOUTHWEST—We would like to ask of the Hon. D. P. Carr, through the columns of your paper, his position on the "Pain Store System," and if he intends, if elected, to bring in a bill to suppress said Store System? Mr. Carr has overlooked this question in his letter of acceptance. His former well known views on the subject gained him the support of the delegation from here. We would like to hear from him again.

MANY SUPPORTERS.

Chamberlain's Cough Remedy, famous for its cures of bad colds and as a preventive and cure for Croup, 50 cents per bottle.

Chamberlain's Pain Balm, a general family liniment and especially valuable for rheumatism, sprains, bruises, burns and frost bites, 50 cents per bottle.

Dr. J. C. Chamberlain's Colic, Cholera and Diarrhoea Remedy, the most successful medicine in use for dysentery, diarrhoea, colic and cholera morbus, 50 cents per bottle.

St. Patrick's Pills. They are the best physic. They regulate the liver and bowels. Try them, 25 cents per box.

Chamberlain's Eye and Skin Ointment for itchy, sore, red, swollen, inflamed, itching and chronic eruptions, 25 cents per box. For sale by W. C. Porterfield, Druggist.

Grand Opening.

Ladies of Grant County, you are respectfully invited to inspect a grand display of Fall and Winter Dress Goods, Ladies' Cloaks, Millinery and Novelties of the latest importations, on Thursday, Friday and Saturday, Sept. 28th, 29th and 30th.

30-25. H. ROSENCRANTZ.

Don't Get What You Want.

If you expect to buy Dr. Pierce's genuine medicines at less than the regular prices. You can buy counterfeit, imitations, dilutions and substitutes, from unauthorized dealers, at what are called "out prices," but the genuine guaranteed medicines cost more and are worth more.

If you do get the genuine, they're the cheapest medicines you can buy. They're guaranteed in every case to benefit or cure, or you have your money back.

But you won't get the genuine, except through druggists regularly authorized as agents, and at these uniform and long-established prices:

Dr. Pierce's Golden Medical Discovery (the remedy for all diseases arising from a torpid liver, or impure blood, 81 per bottle.

Dr. Pierce's Favorite Prescription (the remedy for woman's weakness and derangements, 81 per bottle.

Dr. Pierce's Pleasant Pellets (the best little Liver Pills, 25 cents per bottle.

Dr. Sage's Catarrh Remedy, 50 cents per bottle.

The genuine guaranteed medicine can be had only at these prices. But remember, in buying them, you pay only for the good you get. There's value received or there's no pay at all.

Fall Season of 1922.

Grand opening of foreign and domestic Dress Goods and Millinery. The grandest and most extensive importation of Fall and Winter Dress Goods and Millinery. The finest ever shown in this market.

You will find our prices right for all. See show windows for novelties in Dress Goods and Trimmings. Max Schutz.

Important Notice.

SILVER CITY, N. M., Sept. 12, 1922.

Public Notice is hereby given that I, John W. Fleming, Mayor of the Town of Silver City, N. M., have entered at the United States Land Office, at Las Cruces, New Mexico, lot numbered one (1), in section number three (3), of township numbered eight (8), south, of range numbered fourteen (14) west, containing forty-seven 82-100 acres (47.82), in trust for the several use and benefit of the inhabitants of said town, according to their respective interests.

Each and every person or persons, claiming to be an occupant or occupants, or to have possession, or to be entitled to the occupancy or possession of such lands, or to any lot, block, share or coal thereof, is required within sixty days from and after the 13th day of September, A. D. 1922, in person, or by his or her duly authorized agent or attorney to sign a statement in writing containing an accurate description of the particular parcel of land in which he, she or they claim to have an interest, and the specific right, claim or interest therein, for which he, she or they
